SUPPLEMENTARY INFORMATION:

I. Information Collection Request

IMS is seeking comments on the following Information Collection Request.

Title: "Status of Educational Programming Between Museums and Schools."

Affected Entities: Parties affected by this information collection are museum educators.

Abstract: IMS supports museum school partnerships for K-12 school children through the Museum Leadership Initiative program. In the fall of 1995, IMS sponsored a conference on museum school partnerships. Information about the projects IMS has supported and on selected conference proceedings will be published and disseminated widely to the museum and school communities. IMS also intends to collect, analyze and disseminate data to document the current status of educational programming activity between museums and schools.

Currently, no body of data exists to identify how museums are interacting with schools to advance the education of the nation's school age population. Therefore, we propose to survey a

portion of the museum community with a brief questionnaire to collect this information. The data collection is intended to provide the basis of statistical conclusions about the nature and level of educational programming between museums and schools, but rather is to illustrate the current status and the possibilities for further development.

Burden Statement: For this collection, the estimated average burden hours is .5 and the frequency of response is once. The number of respondents is 500.

II. Request for Comments

IMS solicits comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(ii) Evaluate the accuracy of the agency's estimates of the burden of the proposed collection of information.

(iii) Enhance the quality, utility, and clarity of the information to be collected.
